

FEE SCHEDULE

Our membership fees are based on a levy system of a \$1.90 per vendor per week the market is operating. This accounts for the differing sizes and seasons of our member farmers' markets.

In order to streamline this system, we created the following fee schedule in line with the levy out-lined above. Please locate your market according to your average number of vendors and the average number of weeks that your market is open.

We invoice markets annually, resulting in a tidy paper trail both for us and our members. Membership fees can be paid in one lump sum in May or in two payments (in May and August) with the minimum payment being \$250.

We are a non-profit cooperative and are not required to charge tax on memberships.
